

SOCIAL MEDIA TESTDRIVE prepares young people for real-life experiences in the digital world through learning, practicing, and reflection within a realistic social media simulation.

What is

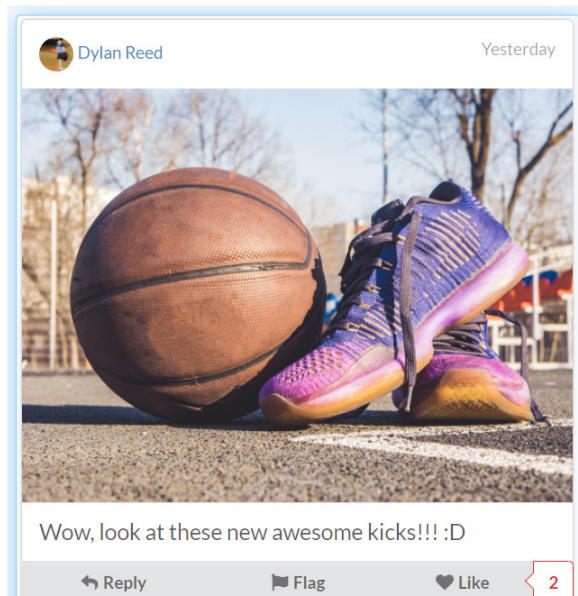

Social Media TestDrive?

Social Media TestDrive is an online learning program delivered through a life-like social media simulation that provides youth a safe space to learn and practice digital literacy and citizenship skills.

Who is

Social Media TestDrive for?

TestDrive is for middle school-aged youth (ages 9 to 13) who are new to or may engage with social media in the near future. The program can be used in middle school classrooms, after-school programs, informal learning settings, or at home.

Cyberbullying is when someone posts or shares negative things about someone else online. The **bully** may use digital devices, sites, or apps. The bully often does this again and again to the same person.
